Note: Enabling the database statistics here might cause heavy traffic between the web server and the MySQL server.

Enable statistics

This screenshot shows the phpMyAdmin interface for managing MySQL databases. On the left, there's a tree view of databases: New, demodb, information\_schema, mysql, performance\_schema, and phpmyadmin. In the main area, it lists the existing databases with their collations and privilege levels. A note at the bottom cautions about enabling statistics, which might cause heavy traffic between the web server and the MySQL server. There are buttons for creating a new database and for dropping selected databases.

The website features a vibrant purple background. At the top, there's a navigation bar with links for Home, Services, About, Reviews, Why Us, and Contact. Below the navigation, a large white text area contains the slogan "Your Idea Matters!". Underneath the slogan is a short, descriptive paragraph. At the bottom of this section is a yellow button with the text "Make a Website". To the right of the text area is a large, stylized illustration of two people: a woman standing and a man sitting, both interacting with a large computer monitor that displays a web page. The overall design is modern and professional.
